# Vantiv VIABLE

Introducing a new innovation in the EMV testing process

Brother DS 620 Mobile Receipt Scanner

Brother DS 620 Mobile Receipt Scanner

- Forms an integral part of your EMV (VIABLE) test kit
- Gives greater control and flexibility to your EMV testing process
- Significantly reduces testing time

1 The scanner is purchased alongside the VIABLE kit

2 Inside the box you will find the user guide, CD and cable

3 The lid of the scanner opens to allow calibration

4 You will find calibration sheets included in the box

5 The CD in the scanner box contains the drivers required

6 Once set up, each receipt is fed into the scanner and automatically saved to the PC

Easily scans receipts for submission with your test results!

- Ideal for desktop or on-the-go
- Powered via the included USB cable – no wall outlet needed
- Compact and lightweight, measuring under 12" in length and weighing less than 1lb
- Scans in colour or black/white
- Windows and Mac compatible

Available for use with Vantiv VIABLE v4 and above
